

CATERING AT WINDMILL HILL CITY FARM

The City Farm Café is the trading arm of Windmill Hill City Farm, providing high quality catering to the community rooms here. Everything we do is designed to reflect and support the ethos of the charity, and all our profits help support the educational and social work the Farm does. Our menu is constantly changing, but you can always find the best produce at the core of our dishes. The Farm has a strong environmental policy, and we play our part by using great local produce, some of it from our own doorstep and recycling almost all the waste we produce, including adding to the Farm's compost heaps daily.

We use local and small-scale producers who pay attention to animal welfare and who respect the rights of their own suppliers through schemes such as Fair Trade. See our website for more supplier information.

We've made it simple to order by having three options, to which you can add extras as required. We provide plates, napkins and cutlery where appropriate.

Please complete all the details below, including any dietary requirements or allergies we need to know about.
